

## 2013 Jahr 3. Projekt

Lifelong Learning Programme **LEONARDO DA VINCI IVT MOBILITY PROJECT**

### **"INTERNATIONAL PRACTICE OF AGRICULTURAL MACHINERY EXPLOITING IN VARIOUS LANDSCAPE"**

**No. LLP-LdV-IVT-2013-LT-0810**

[Joniskelio Igno Karpio zemes ukio ir paslaugu mokykla](#)

The project "International practice of agricultural machinery exploiting in various landscape" aims are: to improve practical skills of driving and using different agricultural machinery in complex and more diverse agricultural and natural conditions, performing maintenance and minor repairing of agricultural machinery of agricultural production business employee (worker), agro-service employee and (or) equipment maintenance business employee specialties students of the four Lithuanian vocational training institutions: Joniskelio Igno Karpio zemes ukio ir paslaugu mokykla, Vsl Kelmes profesinio rengimo centras, Vsl Panevezio profesinio rengimo centras, Joniskio zemes ukio mokykla, while improving the project participants' foreign language communication, learning, social and intercultural competencies.

Project target group of participants - 28 initial vocational training students of second or third training year, all of them students studying specialties of agricultural area (agricultural production business employee (worker), agro-service employee, equipment maintenance business employee).

Two flows were expected for participants' for four-week internships: 20 agricultural specialties students went to placement to Carinthia region in Austria (partner - „Land und Forstwirtschaftlicher Betrieb“) , and 4 - to Hamburg region in Germany (partner - Beratungs-service“).

Participants improved their practical skills of agricultural machinery exploiting, while improving foreign language skills and learning more about the culture of other EU countries.
