

Lifelong Learning Programme **LEONARDO DA VINCI IVT MOBILITY PROJECT**

„Improvement of students’ practical skills on car repair

in the EU countries“*No.LLP-LdV-IVT-2013-LT-0836*

Ukmerge technologies and business school

The Project „**Improvement of students’ practical skills on car repair in the EU countries**“ is prepared by Ukmerge school of technologies and business and is intended for improving of practical professional skills of car repair students in order to reach better opportunities and more successful integration into the labor market.

The participants of project: The participants of the project are 35 undergraduate students of car repair speciality : 6 students from Ukmerge school of technology and business, 6 students from Kaunas mechanical school , 6 students from Panevezys Vocational Training Centre, 6 students from Utena regional vocational training centre and 5 students from Kelme vocational training centre. The project is relevant to all students participating in it, because the question of successful integration into the labor market is very important for all of them.

Project objectives: The overall objective of the project is - to develop practical, professional skills in the context of pan-European car repair and maintenance in order to reach better opportunities and more successful professional integration into the labor market. The main goal will be pursued through the following tasks:

- 1.To improve already existing car repair and maintenance, practical, professional skills and acquire new ones, using the modern techniques and equipment of car repair and maintenance;
- 2.To develop teamwork skills, communication skills, sense of responsibility, self-reliance;
- 3.To improve the practical skills of foreign language in general and professional area;
- 4.To develop adaptation skills in a new culture environment and to gain experience in international mobility.

Project location: Germany, Austria and Latvia. The countries are chosen because of their well-developed automotive industry. The internship in these countries modern car repair and maintenance companies and vocational training centres will allow to implement all the project’s objectives.

Project date: 2013-06-01 - 2014-06-31

The dates of internships: The internships are planned on 2013 September and 2014 April.

The implementation of the project will achieve the following results:

- 1.Improved professional, practical skills of participants of the project in automotive repair and maintenance sphere.
- 2.Developed teamwork, communication skills, acquired a sense of responsibility and self-confidence.
- 3.Improved practical skills of foreign language in general and professional area.
- 4.Developed skills of adaptation in a new culture environment and gained the experience in an international mobility.
